Outline

- I. Introduction
- II. Modelling of the CV-QKD protocol
  - A. CV-QKD protocol
  - B. Typical reconciliation scheme in CV-QKD
  - C. LDPC code
  - D. The relationship between FEC codes and segment vectors $\widetilde{u}_i$ after mapping
- III. System descriptions and comparisons
  - A. System A: the ideal LDPC-coded reconciliation scheme
  - B. System B: the practical LDPC-coded reconciliation scheme
  - C. System C: the propose practical generic reconciliation scheme
  - D. System D: the propose practical generic reconciliation scheme
  - E. System comparison
- IV. Secret key rate analysis
- V. Performance analysis
- VI. Conclusion
