

Correction

IOS Report No 132 "Waves recorded off the Eddystone Lighthouse, September 1978 - August 1981" by B C H Fortnum.

The position of the long-term measurements quoted on page 4, 1.1, is insufficiently precise, while that of the short-term deployment given in Appendix IV.2, on page IX, is in error.

The two positions should be:-

Long-term deployment	50° 10.6'N
	04° 15,7'W
Short-term deployment	50° 08.0'N
	04° 16.7'W
