

EXPERIMENTS

GROUP SHOW

12 March – 29 May 2010 Private view 11 March 6–9 pm

Experiments is the first in a series of exhibitions curated by Artakt and GV Art, that brings together the work of five artists whose practice develops with close and productive collaborations with scientists. Alongside the artists' work, scientists are invited to present a 'piece' or 'object' of their choice that relates to the artwork punctuating and bringing insight to the collaboration.

Experiments is instigated by Marina Wallace, one of the curators of internationally acclaimed exhibitions, *Spectacular Bodies: Art and Science of the Human Body from Leonardo to Now* and *Seduced: Art and Sex from Antiquity to Now*.
