Rome, Italy

POSITION PAPER SUBMISSION: FEBRUARY 8, 2016

CONFERENCE AREAS

Complexity in Informatics, Automation and Networking

Complexity in Biology and Biomedical Engineering

Complexity in Computational Intelligence

Complexity in Social Sciences

MORE INFORMATION AT: WWW.COMPLEXIS.ORG

COMPLEXIS – the International Conference on Complex Information Systems, aims at becoming a yearly meeting place for presenting and discussing innovative views on all aspects of Complex Information Systems, in different areas such as Informatics, Telecommunications, Computational Intelligence, Biology, Biomedical Engineering and Social Sciences. Information is pervasive in many areas of human activity – perhaps all – and complexity is a characteristic of current Exabyte-sized, highly connected and hyper dimensional, information systems. COMPLEXIS 2016 is expected to provide an overview of the state of the art as well as upcoming trends, and to promote discussion about the potential of new methodologies, technologies and application areas of complex information systems, in the academic and corporate world.
