Read me file:

University of Southampton – FEE (CED) – Mihaela Apetroaie-Cristea - mac1g12@soton.ac.uk

The excel file contains experimental data for the paper. In particular:

mac - media access control **address –** replaced with Pi number (1 – 6) when locator node and Tracked Device (1 – 10)

time – time when the data reached the server

dist_no for no. from 1 to 6 = distance to the locator node (1 to 6)

rssi_no for no from 1 to 6 = Received Signal Strength Indicator (dBm) – as seen at the locator node (1 to 6)

freq_no for no. from 1 to 6 = frequency as seen at locator node (1 to 6)

waf_no1_no2 for no1, no2 from 1 to 6 = wall alleviation factor between locator node no1 to locator node no2.

Please note that there are 5 locator nodes numbered from 1 to 6 with 2 missing.

Date of data collection: from May 2016 - July 2016

Information about geographic location of data collection: University of Southampton, U.K.

Date that the file was created: July 2016
