

Research data for

# **Frequency comb generation in a silicon ring resonator modulator**

**Iosif Demirtzioglou, Cosimo Lacava, Kyle R. H. Bottrill, David J. Thomson, Graham T. Reed,  
David J. Richardson, and Periklis Petropoulos**

*Optoelectronics Research Centre, University of Southampton, Southampton SO17 1BJ, UK*

The research data accompanied by this description file corresponds to the above-stated manuscript and it should be read and interpreted in the context of its published form. Each set of data describes a figure illustrated in the published manuscript and is accompanied by appropriate captions which correspond to the figure numbers, axis titles and legend entries stated in the manuscript.
