

Figure S1: Endoxifen steady-state observed minimum concentrations [ng/mL] versus body weight in the pooled dataset, stratified for ethnicity.

Open squares: African, *Open circles:* Caucasian; *Plus signs:* Asian; *Cross signs:* Middle-Eastern Arab; *Stars:* Indian. *Dashed horizontal red line:* proposed endoxifen target concentration⁹.

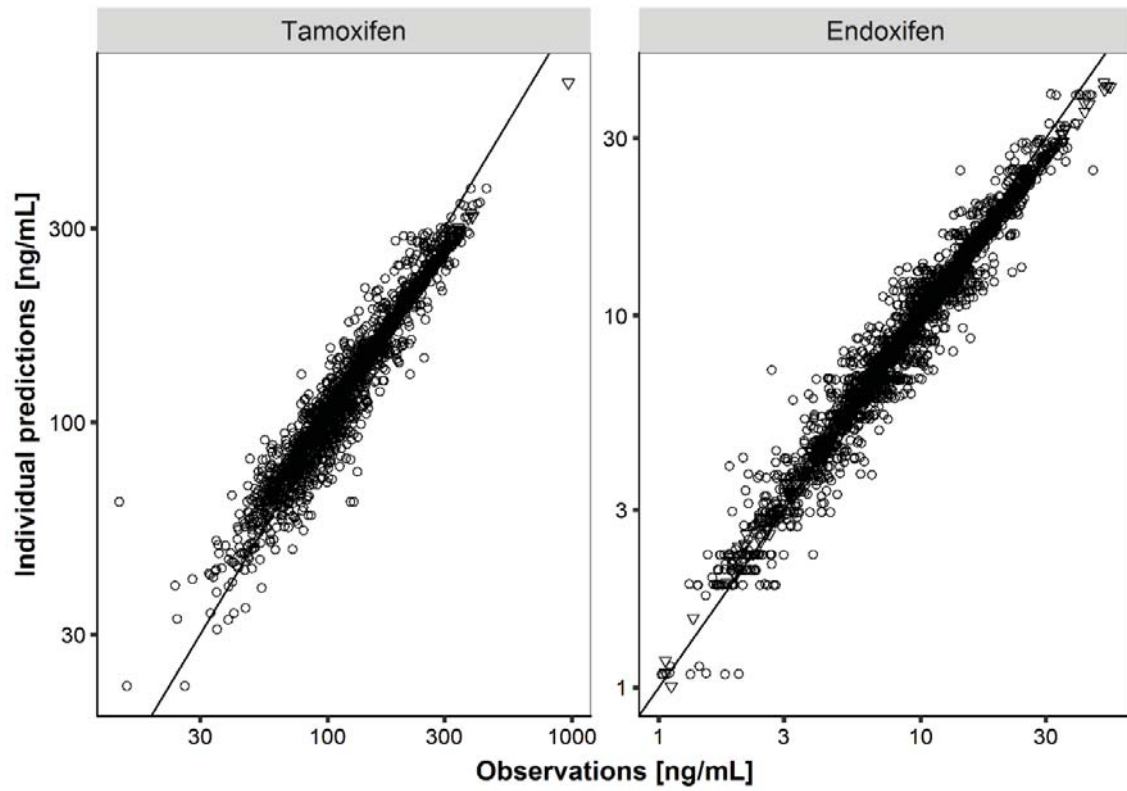

Figure S2: Goodness-of-fit plots for the rich data-based full joint parent-metabolite pharmacokinetic model of tamoxifen and endoxifen using the pooled dataset (n=1388 patients). *Open circles:* Development dataset; *Open triangles:* Evaluation dataset.
