

The impact of research on health care policy, practice and education: Is it visible?

## Conference announcement: Free registration

This year's conference focuses on the impact of research and other scholarly activities on health and social care policy, practice and education.

It offers an opportunity for healthcare workers, educators, researchers and students across the School and its health care partners to share experiences of work affecting policy, practice and/or education.

The conference takes place on Friday 7 July 2006 at the School of Nursing and Midwifery, University of Southampton

To reserve your place please complete the form on the back of this announcement.
