EXECUTIVE SUMMARY

This report has been prepared by the University of Southampton and MarInEM in the framework of WP8 ‘Dissemination, communication and exploitation’ of the EMERGE project. The report addresses Deliverable 8.4 (D8.4) “List of scientific articles and presentations to international conferences.’ It includes two separate lists accurate to end May 2024. Other articles and presentations are in review or are planned later in 2024, and even in 2025, so the final lists will be longer.

US is the Lead Beneficiary for WP8, but MarInEM and US managed WP8 together and closely cooperated on the implementation of its tasks and its deliverables.
