

# Corrigendum

---

Trimby-Smith, Patrick (2024) **Exploring the molecular mechanisms that underpin *M. tuberculosis* and dendritic cell interactions**. University of Southampton, Doctoral Thesis, 335pp  
<https://eprints.soton.ac.uk/493515/>

---

In the above thesis by Trimby-Smith, the following changes have been made after the thesis was originally released:

- An acknowledgement to the author's late grandmother was added
- Figure 29,(original p188, corrected p 187) In the original thesis, the Mesenchymal cells were incorrectly labelled as Plasma cells. The corrected version shows the Mesenchymal cells correctly labelled and the small, previously unlabelled, cluster on the left is now correctly labelled as Plasma cells.
- Figure 30, (original p189, corrected p 188). Table updated to include the results for the Mesenchymal cells
- Figure 54, (original p. 251, corrected p 253) In the original part D and E, HeLa 1uM results were coloured green and the HeLa 5uM results were coloured blue. The corrected version shows HeLa 1uM results as blue and HeLa 5uM results as green.
